Fall 2024

FROM BANA PRESIDENT

BANA Membership

The number of registered and supporting Bel-Air Neighborhood Association (BANA) members has declined significantly since the pandemic. Moreover, the City has eliminated the dues requirement to be a voting member of any Albuquerque neighborhood association. At our currently low-level of support, BANA is destined to run out of money. We implore you to become an active, registered, and supporting BANA member by completing and mailing the form enclosed in this newsletter, or go to [bananm.org](https://www.bananm.org) to join. Please choose to make a voluntary contribution (\$10 per year, per household suggested, but any amount is welcomed). Your money will help ensure positive Bel-Air neighborhood activities continue, including Clean-up Days and the Annual Park Party.

Construction Projects Impact Bel-Air

There are many changes happening in and around Bel-Air: demolition and new construction of the old American

Furniture building site, and major reconstruction on I-25 at the Comanche and Montgomery interchanges. These projects will impact traffic in our area for the next few years. Be safe! Allow additional travel time and plan alternative routes. To learn more about the I-25 project, and to sign up for updates, visit: <https://www.i25improved.com>.

Traffic on Phoenix

In June 2024, at BANA's request, the City performed a traffic study on Phoenix Street between Carlisle and Morningside. In a 48-hour period there were 800 vehicles on that stretch; 15% of the vehicles traveling in the study area exceeded 5 miles per hour over the speed limit. One vehicle was traveling twice the limit – 50 MPH!. Based on volume and speed this area qualifies for traffic calming measures, although what and when depends on budget and other project completions. In the meantime, LET'S SLOW DOWN, BEL-AIR!!

NeighborWood Tree Planting and Give-Away (sponsored by Tree New Mexico)

Saturday, September 28, 2024

11:00 AM until 100 trees are given away!

Bel-Air Miramontes Park on Phoenix

The Bel-Air Neighborhood was chosen for the ABQ tree planting grant by City Councilor Fiebelkorn. Through this grant, a total of 200 trees will be added to our neighborhood! 100 trees have already been granted and will be planted in September.

On Saturday, September 28th, beginning around 11:00 AM at Bel-Air Miramontes Park, an additional 100 trees will be given away to Bel-Air homeowners on a first come basis. Trees will be in 3-5 gallon pots. Instructions on planting and care will be provided. Homeowners must sign an official agreement with the city, committing to care for and water their trees. Tree New Mexico is looking for neighborhood volunteers to help with this project.

What Makes A Good Neighbor?

By Cheryle

Since this is a neighborhood newsletter for our neighborhood organization it seems fitting to consider "What makes a good neighbor?" I asked neighbors, family and friends for their opinions. The number-one response was "someone willing to lend a helping hand". Surprisingly, the second most frequent answer was "someone who smiles, waves or says hello". Wow! How simple! A kind acknowledgement, just a smile or a wave, to fellow travelers on life's journey is important and does make a difference! It's simple and doesn't cost a dime, only a moment of your time. So, let's crack a smile and raise a hand to greet our neighbors in Bel-Air!

Recipe for Green Chile Stew with Tomatillos

INGREDIENTS:

1/2 cup all-purpose flour	1 (7 ounce) can diced green chiles, drained, or 1 cup fresh roasted green chiles
1 teaspoon salt	2 fresh jalapeno peppers, seeded and chopped
1 tablespoon ground black pepper	2 teaspoons dried marjoram
1/2 teaspoon ground cumin	1/2 cup chopped fresh cilantro
1 (3 pound) boneless pork shoulder roast, trimmed of excess fat, and cut into 1-inch cubes	1 cup water
2 tablespoons olive oil, or more if needed	1 pinch salt, or to taste (optional)
1 large onion, chopped	2 tablespoons sour cream, divided
3 cloves garlic, minced	6 sprigs cilantro
2 cups chopped fresh tomatillos	

DIRECTIONS:

1. Stir together the flour, salt, pepper, and cumin in a large bowl. Place the cubed pork into the mixture, and stir well to coat the meat with the seasonings.
2. Heat the olive oil in a large, heavy pan or Dutch oven over medium-high heat until the oil shimmers. Working in batches if necessary, place the meat into the hot pan in a single layer. Pan-fry the pork until brown on all sides, about 15 minutes. Remove the pork to a bowl, and cover to keep warm.
3. Cook and stir the onion in the hot pan over medium heat, adding more olive oil if necessary, until the onion is translucent and beginning to brown, about 7 minutes. Return the meat to the pan and stir in the garlic, tomatillos, chiles, marjoram, chopped cilantro, and water. Check seasoning and add 1 pinch of salt to taste, if needed. Cover and simmer over low heat, stirring occasionally, until the meat is tender, about 1 hour. Skim excess fat off the stew before serving in bowls, garnished with a dollop of sour cream and a cilantro sprig on each bowl.

Food for Thought

*Chile peppers are a fruit, and ripen. Green chiles are considered not ripe, and red chiles are considered to be ripe. Green and red chiles come from the same plant.

*One raw, average-sized, red chile pepper contains about 65 mg of vitamin C, nearly 100 percent of the Recommended Daily Allowance.

*Contrary to popular belief, there is no evidence that chile peppers cause ulcers or digestive problems.

*Chile (in reference to food – not the country) refers to the green and red type chile peppers grown in New Mexico, and the dishes made with them, such as green chile stew. Chili refers to Texas style chili, typically made with beans, ground meat, spices, and chile powder.

*Senator Pete Dominici, had the c-h-i-l-e spelling entered into the 1983 Congressional Record as the official spelling for the New Mexico chile pepper.

(Food for Thought Continued...)

*Botanically speaking, chiles are actually berries because they are formed from a single ovary of a flower, and have several seeds. Surprisingly, chiles, tomatoes, cucumbers and avacados are all examples of true berries, while strawberries and blackberries are not!

*Capsicum plants (chiles) originated in modern-day Peru and Bolivia, and have been a part of human diets since about 7,500 BC. They are one of the oldest cultivated crops in the Americas, and have been traced to east-central Mexico some 6,000 years ago.

Please join us in becoming an active BANA member!

Everyone who lives or works in Bel-Air is automatically a member of BANA (Bel-Air Neighborhood Association). BANA has a board of five dedicated volunteers who work with other volunteers to keep our neighborhood clean, safe, and connected. We need your support in recruiting new volunteers, and covering costs. Donations are our only means of paying for expenses which include: informational signs, postage, post office box fees, website maintenance, supplies, food and drinks for neighborhood events, including the Park Party.

Here are ways you can become an active member and support BANA:

1. Visit **bananm.org** to make a donation by debit / credit card. Any amount is welcome, \$10, \$15, \$25, whatever feels right.
Or, mail your donation to: BANA, PO Box 36568, Albuquerque, NM 87176
2. Volunteer at one or all of our events. (*fill out the Volunteer section below.)
3. Attend BANA meetings. Look for signs in the neighborhood announcing date, time & place.
4. In order to get to know you, and keep you informed of events in our neighborhood, please share some basic information with us.
